The American Cancer Society (ACS) GenNow Network engages young professionals across the nation in the fight against cancer. We are passionate individuals who raise funds and awareness by leveraging our personal and professional networks, organizing mission-based activities and events, and fostering community partnerships.

Our goal is to support the American Cancer Society's mission to improve the lives of people with cancer and their families through advocacy, research, and patient support, to ensure everyone has an opportunity to prevent, detect, treat, and survive cancer.
